

A Local Professional Association for 3rd Space Professionals*

By Derek Moore

* Including ed techies, learning designers, content developers, learning experience designers, learning engineers, learning technologists etc

What is the metaphor that best characterises your work environment ?

Based on Adam Mathews

What are 3rd Space Professionals looking for?

A place where **WE** belong.

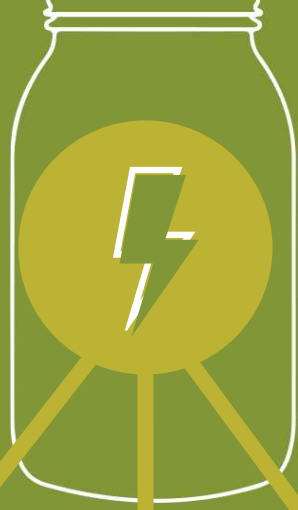

An association that

- 1) Encourages wider recognition of 3rd SP **digital expertise**.
- 2) Represents and protects members' educational interests
- 3) Fosters openness and works towards a genuine transformation for its members and their organizations

TRANSFORMATION

Digital Transformation

A Simple Solution

New product or
service brought to
campus

Ego-systems Thinking

How do 3rd SP do their work in these different spaces

Digital Transformation

We craft fleeting moments of alignment suited to particular tasks with materials that are 'ready-to-hand'

Do we need a association of
3rd Space Professionals to
address complexity.

YES

NO

Ummm

Please select an option and enter it into the chat.

The background is a solid olive green. It is filled with numerous white paper airplanes of various sizes, all pointing towards the upper right. In the center, a dotted white line curves upwards to a yellow circle containing a green five-pointed star. The bottom of the image features a white, torn-paper-like border, and below that is a solid black area.

Thanks to ICTE, there are multiple
possible futures for education

The image features a green background with a white wavy line that curves from the top right towards the bottom center. Scattered around this line are several yellow floral and leaf motifs, including a five-petaled flower in the top left, a cluster of three leaves in the top right, a fern frond in the bottom left, and another five-petaled flower in the bottom right. On the far left, there is a vertical black strip with a white, torn-paper-like edge. The text 'SMALL IS ALL' is centered in the middle of the image.

**SMALL
IS ALL**

Do we need an association of 3rd
Space Professionals to assist
members navigate towers,
factories and networks?

YES

NO

Ummm
